

Essential Access Health's Learning Exchange Presents

Family Planning Health Worker Certification

Public + Private Training Options

Learn how to counsel patients on all contraceptive methods in our nationally recognized, comprehensive contraceptive counseling course for health providers and educators. Both virtual trainings include *The Fundamentals of Family Planning* flipbook manual.

After this training participants are able to:

- Ask pregnancy intention and personal preference questions to help patients select contraception that will work best for them
- List the topics that should be covered to obtain informed consent for prescription birth control methods
- Identify laws related to patients' rights when receiving SRH care
- Demonstrate the use of best counseling practices when providing a contraceptive education session

Training Components:

- Online video modules + quizzes
- Live trainer-led Zooms for counseling skills practice
- CE hours/credits: Nursing=16.1; CHES=14; CPH=13
- 3-year Certification (upon passage of final exam + approval of mock contraceptive counseling session)

PUBLIC INDIVIDUAL Training
