

Essential Access Health's Learning Exchange Presents

Pregnancy Options Counseling Certification

Public + Private Training Options

Learn how to provide client-centered options counseling informed by medically accurate information about pregnancy, parenting, abortion and adoption. This training is essential for anyone who counsels or educates others about pregnancy outcome options.

After this training participants are able to:

- Identify the range of personal opinions and beliefs concerning pregnancy options in order to provide unbiased support
- Describe the key elements of all options: parenting, adoption, and abortion in a non-judgmental manner
- Describe how to create a quality pregnancy options referral list
- Apply client-centered counseling techniques when conducting an unbiased, and non-directive options counseling session

Training Components:

- Online video modules + quizzes
- Live trainer-led Zooms for counseling skills practice
- CE hours: Nursing=12.6; CME=10.5; CHES=10.5; CPH=11
- 5-year Certification (final exam + mock counseling session)
